MEMORANDUM TO: Director of Intelligence, General Staff, U.S. Army
Room 2E-800, National Defense Building

SUBJECT: Retirement point credits for Reserve Officers

25X1

25X1

1. Attached is a letter received from [redacted] who was formerly ID representative on the Interdepartmental Coordinating and Planning Staff of this Agency and who, it is understood, has an 18-day assignment to your Intelligence Division.

2. The request for point credits contained in the attached letter apparently is submitted under the provisions of paragraph 1k, Army Special Regulation 110-10-1.

3. This Agency has received no indication of Army policy governing such cases nor procedures to be followed in connection with the reporting of services for credit. Prior to taking any action it is requested that a statement of policy and procedures desired be furnished this Agency.

4. Consideration should be given to the fact that civilian employees of CIA who are Army Reserve personnel are, in a number of cases, engaged full time in the preparation of special reports for the Agency. It would appear that such personnel should be just as entitled to point credits as in the case of [redacted] A ruling on this matter is also requested.
